8:30-11:30am	3.00	Robert Laguna, MSOM, LAc.	Meridian Balance Treatment for Pain: Meridian balancing is an extremely effective approach to the treatment of pain and many other syndromes that can be put to use in your practice IMMEDIATELY! The principle objective of this course is to provide an introduction to balancing the acupuncture meridians through acupuncture or acupressure in order to treat many of the patients seen by practitioners today. The meridian balance approach utilizes 5 treatment approaches based on the Chinese bagua. This particular methodology is very effective in the treatment of pain, respiratory, endocrine, and reproductive problems, just to name a few. We will also discuss the effective herbal formulas used in support of the meridian balance treatments.	General Acupuncture-2.5; Herbology-5	\$84.00	
11:30-11:35am Break						
11:35am-12:35pm	1.00	Dongxin Ma, PhD, M.D (China), LAc.	Women's Emotions and Blood Deficiency: Both men and women can have emotional diseases, but there are some differences in the differentiation of syndromes. TCM has a saying: "Woman is blood, man is qi." We will discuss how we can relate this saying to the treatment of a woman's emotional and physical conditions simultaneously using primarily herbal treatments, as well as exploring other supporting options.	Herbal- .5; General Acupuncture-.5	\$28.00	
12:35am-12:40pm Break						
12:40-2:40pm	2.00	Claudia Voyles, DAOM, LAc	Part 1: Whole Health - How the Veterans Administration wants to change the culture of healthcare and how that impacts the General Acupuncture community. The largest healthcare provider in our country is changing the way it understands health and health care. The Whole Health Initiative will change the way Veterans get care in the VA and in the community. We will explore the tenets of Whole Health initiative and how it might influence the field of Traditional East Asian Medicine, including the creation of jobs for acupuncturists. We will also explore the expectations of the VA for community providers serving Veterans through TriCare including documentation and patient management. Part 2: Ears, Ears, Ears - Current trends in auriculotherapy: protocols and patient self-acupressure. This class will provide an overview of auricular therapy and some of the more recent protocols such as Battlefield General Acupuncture and HMI Auricular Trauma protocol; how to incorporate the ear into clinical practice; and the role of auricular therapy in the pandemic and beyond.	General Acupuncture- 2	\$56.00	
2:40-2:45pm Break						
2:45-3:15pm	0.50	Claudia Voyles, DAOM, LAc Qianzhi Wu, PhD., MD (China), LAc	Safety Roundtable	Safety-5	\$0.00	
3:15-3:20pm Break						
3:20-6:20pm	3.00	Qianzhi Wu, PhD., MD (China), LAc	Treating the emotional disorders caused by the health crisis: The covid-19 crisis affects our life from all aspect which causes a lot of emotional disorders. This seminar will provide treatment protocols based on General Acupuncture, moxibustion, Chinese herbal medicine, Tuina, Qigong and traditional Chinese exercises to induce psychosomatic relaxation and treat the physical symptoms caused by emotion disorders, such as insomnia, anxiety, stress, depression, panic attacks and so on.	Biomedicine-.5; General Acupuncture-1.5; Herbology-1	\$84.00	
Total Day Hrs	9.50			Total Day Cost	\$252.00	

November 1, 2020

Time	Hrs	Speaker	Title-Description	CAE	Cost	Indicate your choices
8:30am-11:30pm	3.00	Jing Fan, PhD, MD (China), LAc	The Qi Transformation pattern and strategy of TCM treatments for Covid-19 cases: This presentation reviewed the valuable experience of TCM treatments for Covid-19 cases in China and the US, discussed the classic pattern differentiations for Covid-19 cases with the theory of Yin-Yang-Qi Transformation, and provided the real experienced oral-topical herbal formula, General Acupuncture, Qigong exercise solutions for different stages of the Covid-19 disease.	Biomedicine-1; General Acupuncture-1; Herbology-1	\$84.00	
11:30am-11:35pm Break						
11:35-12:35pm	1.00	Christina Captain, DAOM, MSAOM, MSHN, MA, DIPL. AC, AP, SLP, DOM	Basic Wellness Labs: Review of basic essential blood labs relative to TCM practice. This biomedical course will explore basic laboratory assessments for evidence based treatment protocols that will better inform your treatment protocols.	Biomedicine-1	\$28.00	
12:35-12:40pm Break						
12:40-2:40pm	2.00	Marlene Merritt, DOM, MS Nutrition, CNS, IFMCP	Moldy To Healthy: Recognizing CIRS: Chronic Fatigue Syndrome, fibromyalgia, your complex patients who have seen 15 practitioners and who don't get better... it's now being seen that the root of these issues is a biotoxin illness. Chronic Inflammatory Response Syndrome encompasses multiple biotoxin vectors, and we will be discussing the one responsible for more than 80% of CIRS patients — water-damaged buildings and the immune response and dysregulation that can occur when exposed to mold and fungal fragments. This course will cover the screening process that you as a practitioner can do to determine if a patient has CIRS, and what tests should be ordered to confirm a diagnosis. We will also discuss specifics about what to look for in a house if mold is suspected, and how to accurately test a house for mold. Learning to recognize CIRS will transform your practice, and make you a hero to your patients who have been desperate to find an answer.	Biomedicine-1.5; General Acupuncture-.5	\$56.00	
2:40-2:45pm Break						
2:45-4:15pm	1.50	Leslie Myers, J.D., LAc. Anne Byrd-Garofalo, MSSW, LCSW	Ethics for the Caring Professions: Review of ethical guideline, case studies and discussion of ethical issues arising out of Covid-19	Ethics-1.5	\$42.00
