Internal medical and chronic pain disorders, such as fibromyalgia, chronic fatigue syndrome, traumatic injuries, arthritis, irritable bowel, sexual problems, and back, abdominal, chest, and neuropathic pain are some of the most common issues of today's patients. Clinically, these disorders are characterized by various symptoms involving fatigue, anxiety, weight gain or loss, headaches, migraines, mental fogginess, memory, low libido, depression, hair loss, thinning hair, muscle weakness, moodiness, hot flashes, night sweating, constipation, bloating/swelling, GERD, gas, and incontinence, to name a few.

Advanced Meridian Balancing and the Pulse Matrix™ system of pulse diagnosis are well suited for robust acupuncture and herbal strategies in the treatment of complex internal medical conditions and unexplained or chronic debilitating pain disorders.
